Washington, D. C., October 31,—The officials of the Navy Department are watchofficials of the Navy Department are watching with some apprehension the course of events at Charleston, S. C., where, beginning to-day, there is to be a celebration of "gala week" in commemoration of the escape of the city from total destruction by the earthquake of 1885. At the request of citizens the United States steamers Dolphin and Vesuvius have been sent to the city to participate in the celebration. The vessels arrived there vesterday, and the apprehension of the naval officers is caused by the announcement in the press that a naval bombardment of Fort Sumter is to form a part of the programme. If any caused by the announcement in the press
that a naval bombardment of Fort Sumter
is to form a part of the programme. If any
such intention had taken shape in the official programme the Navy Department
would have promptly countermanded the
orders of the naval vessels, for Commodore
Ramsay says that he would not for a moment tolerate the idea that a vessel of the
United States navy should participate in
an attack, even though it were a sham attack, on the national flag.

The officers have concluded that as no
official programme of the celebration has
been brought to the attention of the department there is at present no basis for
official action, so it has been decided to
leave the question as to the participation
of the vessels in the celebration to the discretion of Commander Brownson, of the

By telegraph to the Dispatch.]
Washington, October 31.—The Secretary of State has recently sent an important instruction to the United States Legation in London respecting Dr. Thomas Gallagher, John Curtin, and other Irish-American citizens now serving life-sentences in Great Britain. Numerous representations have been made to this government in their behalf, and President Harrison's sympathy has been so aroused that he has directed that the Legation in London bring the matter to the attentive consideration of the British government with a view to securing such modification of the sentence of the court as will bring about their release from further imprisonment.

lease from further imprisonment.

Dr. Gallagher is reported to be in greatly impaired health, and the legation has been instructed to have a visit made to his prison and procure such alleviation of his confinement as humanity may suggest pending consideration of the case as newly presented. Strong confidence is felt at pending consideration of the case as newly presented. Strong confidence is felt at the State Department that in view of the President's deep interest in the matter, of the long confinement which the prisoners have aiready suffered, and of their certified good character in the United States, the present Giadstone government will listen faverably to the appeal of the United States and grant them liberty to return to the country of their adoption.

England's Cotton Dispute.

[By Angio-American cable to the Dispatch.]

London, October SI.—Each side in the cotton dispute is seeking to fix on the other the odium of commencing the threatened war. The masters describe it as a strike, while the operatives declare it will be a lockout. The fact that the mayors of Liverpool and Manchester, in their efforts to settle the trouble, took the masters view of the situation, has caused the spinners to smub the efforts to bring about arbitration of the trouble by councils of the Master Cotton-Spinners' Federation and the Amalgamated Society of Cotton-Spinners. The leaders of the society of cotton-spinners assert the ability of the union men to hold out six months, and declare that they will teach the union spinners a lesson. It is believed that a cessation of work for six weeks will so reduce the accumulated stocks of manufactured goods that the masters will be willing to reopen their mills at the old rate of wages. A FATAL COLLISION.

AST-BOUND COAL TRAINS COME TO-GETHER AT WARWICK'S SWAMP.

Iwo Men Killed and Three Injured as Result of the Accident-Three of the Victims Tramps Stealing a Ride.

CREWE, VA., October 31 .- A very bad freight wreck occurred on the Norfolk and Western railroad early this morning at a point between Disputanta and Waverly, locally known as Warwick's Swamp, in which a number of cars were demolished and both engines much damaged. Two east-bound coal trains were in rear-collision, occasioned by a very heavy grade at the point of accident. Freight-Enginemen Archer Cummins had his right arm bruised; his fireman, J. M. Hinnant, a rib broken on the right side and driven into the lung; also the right collar-bone broken. A colored brakemar named Madison Giles, of Petersburg, was hurt in the head and side.

(NE TRAMP KILLED. There were three tramps on the wrecked train, one of whom was killed, the other two injured. The name of the man killed was Leonard Leport, from Germantown, Pa. The others injured are John Fahhan, right arm broken and bruised about the head, and his brother, Andrew Fashan, injured internally—both from Trenton, N. J. They say that they, with Leonard Leport, the man killed, had been with Savder & Zimmerman's show, and that they left it at Lynchburg.

MEDICAL AID.

MEDICAL AID. Dr. J. W. Bryant, the company's surgeon, was sent from here to the scene of the accident and rendered all medical aid possible to the injured men, and brought them to the hospital here in a special car on the first passenger train that passed the wreck coming west. All trains have been seriously delayed on account of the wreck.

DIED FROM HIS INJURIES, James McCoy, a white laborer, had his left leg broken to-day while at work with the wreck-car, clearing the wreck at Warwick's Swamp. He was brought here on train No. 3 and died in the hospital about 6:45 this evening. Dr. W. V. Atkins was sent east to meet the injured man, and did all in his power for his relief, but could not rally him from the first shock. McCoy was a single man about 28 years of age. His home is at South Mills, Bertie county, N. C.

INCENDIARY GOODE.

A Political Riot Nearly Precipitated at Farmville.

[Special telegram to the Dispatch.] (Special telegram to the Dispatch.)

FARMVILLE, VA., October 31.—A general riot was nearly precipitated here to-night by the most incendiary speech ever delivered in our midst. J. Thomas Goode, the Third-party candidate for Congress, was the speaker, and some two bundred negroes and several scores of whites his auditors. From the beginning of his address he heaped the vilest vituperation and slander upon the Democracy and the present election laws. He seemed to suit his words to his audience by abusing the Democrats and lauding the Republicans until he advanced to vile abuse of the Christian ministry, ingunating in terms of shameful developments. vanced to vile abuse of the Christian ministry, in munting in terms of shameful derision that they countenanced election frauds and the stealing of Republican votes. He knew of only four exceptions in the ministry, and two of these were found in Drs. Talmage and Dixon. of New York, and a third in Rev. Mr. Jordan, of Mecklenburg county, and the fourth in Sam Jones. Sam Jones.

ANOTHER FOUL SLANDE This broad and impertinent assertion brought hisses and jeers from many in the audience, but the most exciting assertion made by the speaker, and one which brought every white man to his feet, with the unmistakable signs of anger depicted in his countenance, was that while he (Goode) was in the Legislature as many as three Democratic celleagues of his told him that they were not elected from their respective counties, but simply counted in. His reply to them was that if he had comethere unfairly to the legislative halls he would have kept on over to Superintense.

HE DECLINED. A gentleman arose in the audience and demanded the names of the legislators. Mr. Goode declined to name even one, say-ing he was responsible only to the legisla-tors themselves for his assertion. Here

HISSED AND JEERED. Perfect pandemonium reigned from this time until Mr. Goode was hurried from the rostrum and taken to the McKinney the rostrum and taken to the McKinney Hotel. The wildest excitement prevailed and he was hissed and jeered along the street en roule by all classes of citizens. The very air seemed to rend with the exclamation, "What's the matter with the ministry?" It is clear that Mr. Goode lost the few votes that might have been cast at this place for him by his ill-advised speech here to-night.

The enforced withdrawal of Mr. Gilliam, their distrust of General Mahone, and the unwarranted interference of the national committee in local matters as well as their dislike of Third-party principles, combine to make them take this course.

COULD NOT REGISTER. Mr. Shepperson Arrested for Refusing to

List a Negro's Name. Mr. B. F. Shepperson, registrar of the Second Precinct Clay Ward, was arrested yesterday afternoon upon a warrant worn out before United States Comm sioner Flegenheimer, charging him with recusing to register a negro named George Wood-son.

The paper was executed upon Mr. Shepperson late in the evening and he was released upon his own recognizance in the sum of \$1.000. His case will come up for preliminary examination before the Commissioner this morning at 10 o'clock, and Messrs. C. V. Meredith and S. S. P. Patteson will appear as Mr. Shepperson's representatives.

ONLY DID HIS DUTY.

This arrest seems to have greatly in-censed the good Democrats of the com-munity, who think the facts in the case will show that Mr. Shepperson did only his full duty and that his arrest was an

will show that Mr. Suepperson and only his full duty and that his arrest was an outrage.

It seems that the negro went to the polls last Saturday to register and Mr. Shepperson, in looking over a printed list of disqualified voters, so declared by the original signature of the Clerk of the Hustings Court of this city, saw the name of George Woodson (colored), who had been convicted and sentenced to the penitentiary for a crime which disfranchised him. The registrar questioned his applicant closely as to his previous life, and finally told him that he could not register any man whose name appeared on the list already spoken of unless testimony was brought forward to the effect that the applicant was other than the person mentioned in said list. This, Mr. Shepperson explained, was in accordance with the laws governing the conduct of a registrar. This, it appears, was the whole cause for the swearing out of the warrant against Mr. Shepperson. REPUBLICAN MISDEEDS.

It is officially stated from the headquar ters of the City Democratic Committee that Republicans were detected commit-ting frauds in the registration just over, and that they will be made to account for their conduct in the fulness of the law.

NEW YORK STOCK MARKET. NEW YORK. October 31.—The week opened the Stock Exchange with a continuance of the bullish feeling that prevailed Saturday after the unexpectedly favorable bank-statement was

THE OPENING BUOTANT.

The receipt of high quotations for Americans from London helped to impart confidence in the market, which showed an advancing tendency from the start. In addition to the buoyancy of the Industrials and low-priced stocks, which have been prominent in the dealings of late, there was increased activity in the dividend-paying railway shares like St. Paul preferred, Northwestern, Lake Shore, and Menigan Central, which rose anywhere from \$4\$ to \$2\$ per cent, the last-named leading the apward movement. Heavy tonnage on the trunk-lines both east and west of Chicago stimulated purchases.

GRANGERS, COLLEGS AND DIDESTRIALS. GRANGERS, COALERS, AND INDUSTRIALS.

GRANGERS, COALERS, AND INDUSTRIAIS.

The Grangers improved a point or more. Among the coal shares, Lackawanna and Delaware and Hudson rose 135a145, while Rending and Jersey Central declined 45a1 per cent. Among the Industrials, Distilling and Cattle-Feeding and Chicago Gas were centres of attraction. The former rose 2½, to 67, and the buying was based on reports that the company has gained control of its only competitors at the West, although the officials still deny all knowledge of the matter. Chicago Gas advanced nearly 2 per cent, and closed at the bighest figures. The commission houses executed a number of investment orders, the stock being taken on assurances by insiders that it will soon be on a sound basis. American Sugar was up about a point, while American Tobacco declined 1½ and later rose 1½ per cent. National Linseed Oil was weak and declined 1 per cent. New York and New England, Pacific, and Canada Southern each gained about 1 per cent.

THE SPECIALTIES.

Among the specialities New York, Susquehanns, and Western preferred advanced 336, and the common 36. It is stated that arrangements are being made to bring the road into closer connection with the lines of the Pennsylvania system. New York and Northern preferred, 445. The common, which has not been traded in for years, opened at 10 bid, and later sold at 1334a14. Report has it that the old relations between the company and the New York and New England have been rectored, and that the Reading is throwing some of its business over the line. Rumors were in circulation that the Metropolitan Traction Company would turf up as a large owner of New York and Northern and Manhattan stocks at the annual elections of those companies on November 9th.

THE CLOSE STEONG. THE SPECIALTIES. THE CLOSE STRONG.

The fact that the money market worked smoothly despite the calling in of loans preparatory to the November interest and dividend disturbed the called the state of the state market, which closed strong in tone. CHICAGO.

CHICAGO. October 30.—To-day marked the culmination of the big deal in ribs on the Board of Trate, and when the gong sounded the hour for closing ribs were still king and Wright was still propaet. The pit was jammed during the last quarter of an hour, the general expectation being that the shorts would come in anni attempt to fix a price by "wash" sales. General expectation was wrong, however, as the shorts did nothing of the sort, and the great deal culminated without a ripole of excitement. The price at the wind-up was \$1.2 even, and the indications were that the shorts had practically all settled, netting Messers. Culmby and Wright about \$1,000,000. The deal was the outgrowth of an attempt by the packers to break Wright, who was "long" at the time of the cholera CHICAGO. who was "long" at the time of the cholera scare. Wheat closed \$\frac{9}{2}\c.\$ higher, notwithstanding big receipts and a very close approach to the heaviest visible supply on record. Corn gained from \$\frac{9}{2}\c.\$ to \$\frac{9}{2}\c.\$ to ver Saturday's closing rates. Outside of October ribs provisions were weak and lower.
